TUESDAY, JULY 5, 1870.

WEDNESDAY, JULY 6, 1870.

An entry under this date in the journal of Chas. M. Cooke gives an account of Mary Shooting a Cowbird Rail about 5 o'clock this morning in the swamp below lying just to the west of the Cambridge Reservoir on Highland St. The earliest entry in Cooke's journal describes at some length bird voices which were heard by him on this date & on the evenings of June 29 & 30, 1870 The notes heard on the 29th he describes as sounding like a Sora-Rail & Kicklail in rapid succession. This, he says was the song of the Sora. Rail. The notes heard on the 30th were "a theme or refrain" of the Carolina Rail Porzana Carolina. Heard by Dana on Alewife Brook the Carolina Rail about this morning & that I considered it an extremely rare bird. Several singers of having recently heard.

Woodcock S. sitting in Uncle Ford's swamp

"I went down to see Will Brewster & we arranged to start Rail shooting about 1 P.M. He came up here about that time; we beat around through the swamp but could not start a single bird. We came to a small patch of trees & bushes located in the middle of the big swamp. We had started then some minutes to eat our dinners when I fired at a Blackbird & up went a Woodcock quite near W.B. We hunted around a good while but could not start him again. We then went to the woods on the swamp near the Glen also on the East side. There I got a flying shot at a Night Heron & killed it dead. In the same tree up went a Woodcock which Will took a snap shot at but missed. I saw the dog (a pointer) some distance off & Will got a bird & I got one. I had a splendid shot at a fine old male Wood Duck (painted) finely; but I missed, I suppose, as it would not fall & the bird was not hurt & went off. Will thinks there were only 2 Ducks in the woods & that we killed them all, the 2 which we got & the old male we found. We would till nearly 8 o'clock on the R.R. tracks for rails there & but only found a few [illegible] a distance.

(Copied Dec. 12, 1906 from diary in custody Mr. Carter's journal under date of July 20, 1870. Uncle Arnold Ford of Trees & Birds "mistook it, was I think, that on the Cobb Island on the Black ground hunt. W.B.)

THURSDAY, JULY 21, 1870.

Woodcock Shooting in Pine Swamp.

"W. B. and I again started for the swamp at 9 a. m. but we found not a Rail nor even a Woodcock in the same woods. We went around to the Pine Swamp and were coming along the lane when we saw a man with a gun walking around in the woods and at the same time Dan pointed a Woodcock & started it up. It flew right towards the man & directly over him but he did not see it. We waited some time in hopes the man would leave the woods, but when he got out of sight among the bushes we, not a gun but we could not see anything. I then went in the woods & put up the Woodcock that was over him; the man was within 30 yards of me but he did not see anything. I saw he had a dog & was evidently after Woodcocks, In the same woods in mist Harry Stevenson a friend of W. B's who walked all the way home with us. He had an French Setter Dog and was shooting"

FRIDAY, JULY 22, 1870.

"This morning about 11 o'clock I went down to Hill Brewster's and Harry Stevenson was there. We stayed there till about 2 P.M. talking & looking over Will's birds eggs &c. We had dinner at 5 o'clock and at 5.30 just as I was through dinner W. B. came up and we walked up to Hawk Point and took out his boat; we soon heard a Kingfisher which I killed after [illegible] and Will got a double shot at 2 peeps and killed 1 and I fired at the 2d one but also missed. Very soon after a Kingfisher came along and I brought him down with 1 shot. A minute after W. B. shot another peep. When it was growing dark we took about 6 shots at birds and could not bring one down. Will shot a Chimney Swallow on the wing. We came in about 8.30"

Trip to Concord.

This morning I waited home till 9 o'clock when Will Parkhurst drove up here with his horse & buggy. I took my gun & some ammunition. We drove up by Clothing over to Concord through by way of the Cascade. We had a very pleasant drive up to Concord, which we reached at 12 o'clock. We went to Dan French's and found him & his father busy at work on a flat bottom rowing boat which they are building for Dan's use. It seems to me to be as good a pattern for a rowing boat as I have ever seen; it is 15 ft. long & about 30 in. wide (plank at both ends) & " 12 " deep like this

The bottom is 3/4 in pine boards, 1½ in pine boards. Sides ends & sides with oak and the board around the edge is oak & knees are oak & bolted on by a blacksmith.

We took dinner at Chas. French's and from after P. M. I went down to the river and had a swim. We started on Concord at 5.30 P. M. and arrived at " " 8.00 " "

The drive home was very pleasant and cool. Thermometer in shade to day was 93°

Spent the day
in the House

Remained in
the House all day

Clear and warm
Without any apparent
cause my Eye was
so much worse this
morning that I went
to see Dr Williams
about it, who gave
me some eye Lotion,
after examining it
carefully

Cold, and very
windy

After breakfast
carried a message
to Mrs Nichols from
Mother.

Mother read
to me most of the
day.

Clear and very
cold.
Remained
all day in the house,
and Mother read to
me much of the time,

Clear and
cold.
